🎓 EDUCATION

City University of Hong Kong	09 2023 – 08 2027 (Expected)
Doctor of Philosophy (Supervisor: Prof. Xianghao YU)	Hong Kong SAR, China
Electrical Engineering	3.92/4.0
• Dissertation: Pending	
Beijing Institute of Technology	09 2020 – 06 2023
Master of Science (Supervisor: Prof. Zhen GAO)	Beijing, China
Information and Communication Engineering	Municipal Outstanding Graduate
• Thesis: Learning-Assisted Channel Estimation, Beamforming, & Joint Coding for mMIMO	
Beijing Institute of Technology	09 2016 – 06 2020
Bachelor of Science	Beijing, China
Electronics and Information Engineering	

🏆 AWARDS

• ICC'26 Student Travel Grant	04 2026
• Chinese Institute of Electronics (CIE) Outstanding Master's Thesis.	03 2026
• Exemplary Reviewer of IEEE WIRELESS COMMUN. LETT.	02 2026
• Exemplary Reviewer of IEEE COMMUN. LETT.	12 2024
• CityU Academic Excellence and QE Award	09 2024
• Entrance Fellowship of CityU Graduate School	09 2023
• Hong Kong Ph.D. Fellowship Scheme (HKPFS) Awardee	04 2023
• 2021 National Scholarship (~ 0.2%) for Graduate Students	09 2021
• 2020 National Scholarship (~ 0.2%) for Graduate Students	09 2020

⚙️ RESEARCH

Near-Field Communication via Curved Caustic Beams

<i>Supervisor: Prof. Xianghao YU</i>	01 2026
• Leveraged EM caustics to design curved beams that focus on the legitimate user region and bypass the undesired eavesdropping region, enabling robust and secure near-field communication [J1].	
• Comprehensive introduction on caustic beamforming [A3].	

Massive Movable Antennas in Near-Field Communications

<i>Supervisor: Prof. Xianghao YU</i>	08 2025
• Pioneered the Antenna Density Function (ADF) concept, a novel analytical tool providing the first tractable model to analyze and optimize massive movable antenna systems in the near-field. [J3]	
• Derived the first-known closed-form optimal antenna positions for near-field communication maximizing achievable rates [J2, J3].	
• Analyzed the optimal movable antenna positions using an Electrostatic Equilibrium model. Derived the closed-form solution of optimal discrete antenna positions with asymptotic analysis [J2, C1].	

Sensing Assisted Channel Estimation for Near-Field XL-MIMO

<i>Supervisor: Prof. Xianghao YU</i>	09 2024
--------------------------------------	---------

- Proposed a **back-projection** based algorithm for near-field localization with significantly **reduced complexity** [J4].
- Utilized the estimated location coordinates for channel estimation/beamfocusing [C2, C3].

Learning-based Communication Signal Processing with XL-MIMO

Supervisor: Prof. Zhen Gao

06 2023

- Channel estimation and CSI feedback techniques with XL-MIMO antenna arrays [J6, C5, C7].
- Semantic communications for texts [C4].

Reconfigurable Intelligent Surface (RIS) assisted Wireless Commun.

Supervisor: Prof. Zhen Gao

09 2019

- Designed architectures and algorithms for RIS-assisted MIMO-OFDM systems.
- Proposed an OMP-based uplink channel estimation method to efficiently reconstruct the **sparse channel matrix** with low overhead. Enhanced the estimation performance with denoising neural networks [J5].
- Proposed an AMP-based user detection method to achieve grant-free multiple access [J7].

SERVICES

- **Academic**
 - **Peer Reviewer**, IEEE ComSoc/SPS Journals and Conferences.
 - **Session Chair**, *Wireless Networks*, ICC'26, Glasgow, UK. 05 2026
 - **Session Chair**, *Near-Field, ELAA & Holo. MIMO*, ICC'26, Glasgow, UK. 05 2026
 - **TPC Member**, *Wireless Communication*, ICC'26, Glasgow, Scotland, UK. 12 2025
 - **Session Chair**, *Antenna and Smart Antenna*, GLOBECOM'24, Cape Town. 12 2024
 - **Session Chair**, *Mobile and Wireless Networks*, ICC'23, Dalian, China. 08 2023
- **Teaching**
 - **Research Assistant** at Dept. EE, City University of Hong Kong. 08 2024 -- 10 2025
 - **Teaching Assistant**:
 - * EE3009 Data Commun. and Networking, City University of Hong Kong Spring 2026
 - * EE3008 Principles of Communications, City University of Hong Kong Fall 2024
 - * EE3008 Principles of Communications, City University of Hong Kong Spring 2024
 - * EE3008 Principles of Communications, City University of Hong Kong Fall 2023
 - * Innovation and Entrepreneurship Projects, Beijing Institute of Technology Spring 2023
 - * Frontiers of Communication Technology, Beijing Institute of Technology Spring 2022
