🎓 EDUCATION

City University of Hong Kong **09 2023 – 08 2027 (Expected)**
Doctor of Philosophy, Candidate (Supervisor: Prof. Xianghao YU) Hong Kong SAR, China
Electrical Engineering 3.92/4.0

- Dissertation: Pending

Beijing Institute of Technology **09 2016 – 06 2023**
Bachelor & Master of Engineering (Supervisor: Prof. Zhen GAO) Beijing, China
Information and Communication Engineering

- Thesis: Learning-Assisted Channel Estimation, Beamforming, & Joint Coding for mMIMO

🏆 AWARDS

- ICC'26 Student Travel Grant 04 2026
- Chinese Institute of Electronics (CIE) Outstanding Master's Thesis 03 2026
- Exemplary Reviewer of IEEE WIRELESS COMMUN. LETT. 02 2026
- Exemplary Reviewer of IEEE COMMUN. LETT. 12 2024
- CityUHK Academic Excellence and QE Award 09 2024
- Entrance Fellowship of CityUHK Graduate School 09 2023
- **Hong Kong Ph.D. Fellowship Scheme (HKPFS) Awardee** 04 2023
- **National Scholarship** (~ 0.2%) for Graduate Students 09 2021
- **National Scholarship** (~ 0.2%) for Graduate Students 09 2020

⚙️ RESEARCH

LLM Inference Optimization

Supervisor: Prof. Xianghao YU 05 2026

- An analytical/optimization framework for disaggregated LLM inference system [J1].

Near-Field Communication via Curved Caustic Beams

Supervisor: Prof. Xianghao YU 01 2026

- Leveraged EM caustics to design curved beams that focus on the legitimate user region and bypass the undesired eavesdropping region, enabling robust and secure near-field communication [J2].
- Comprehensive introduction on caustic beamforming [A1].

Massive Movable Antennas in Near-Field Communications

Supervisor: Prof. Xianghao YU 08 2025

- **Pioneered** the Antenna Density Function (ADF) concept, a novel analytical tool providing the first tractable model to analyze and optimize massive movable antenna systems in the near-field. [J4]
- Derived the first-known closed-form optimal antenna positions for near-field communication maximizing achievable rates [J3, J4].
- Analyzed the optimal movable antenna positions using an **Electrostatic Equilibrium** model. Derived the **closed-form solution** of optimal discrete antenna positions with asymptotic analysis [J3, C1].

Sensing Assisted Channel Estimation for Near-Field XL-MIMO

Supervisor: Prof. Xianghao YU

09 2024

- Proposed a **back-projection** based algorithm for near-field localization with significantly **reduced complexity** [J5].
- Utilized the estimated location coordinates for channel estimation/beamfocusing [C2, C3].

Learning-based Communication Signal Processing with XL-MIMO

Supervisor: Prof. Zhen Gao

06 2023

- Channel estimation and CSI feedback techniques with XL-MIMO antenna arrays [J7, C5, C7].
- Semantic communications for texts [C4].

Reconfigurable Intelligent Surface (RIS)-Assisted Wireless Commun.

Supervisor: Prof. Zhen Gao

09 2019

- Designed architectures and algorithms for RIS-assisted MIMO-OFDM systems.
- Proposed an OMP-based uplink channel estimation method to efficiently reconstruct the **sparse channel matrix** with low overhead. Enhanced the estimation performance with denoising neural networks [J6].
- Proposed an AMP-based user detection method to achieve grant-free multiple access [J9].

SERVICES

- **Academic**
 - **Peer Reviewer**, IEEE ComSoc/SPS Journals and Conferences.
 - **TPC Member**, *Wireless Communication*, ICC'27, Washington, D.C., USA. 09 2026
 - **Session Chair**, *Wireless Networks*, ICC'26, Glasgow, UK. 05 2026
 - **Session Chair**, *Near-Field, ELAA & Holo. MIMO*, ICC'26, Glasgow, UK. 05 2026
 - **TPC Member**, *Wireless Communication*, ICC'26, Glasgow, UK. 12 2025
 - **Session Chair**, *Antenna and Smart Antenna*, GLOBECOM'24, Cape Town. 12 2024
 - **Session Chair**, *Mobile and Wireless Networks*, ICC'23, Dalian, China. 08 2023
- **Teaching**
 - **Research Assistant** at Dept. EE, City University of Hong Kong. 08 2024 -- 10 2025
 - **Teaching Assistant:**
 - * EE3009 Data Commun. and Networking, City University of Hong Kong Spring 2026
 - * EE3008 Principles of Communications, City University of Hong Kong Fall 2024
 - * Innovation and Entrepreneurship Projects, Beijing Institute of Technology Spring 2023
 - * Frontiers of Communication Technology, Beijing Institute of Technology Spring 2022
